

## ACROPOLIS TOOLS

# Actual artifact found using Acropolis Tools.

### **NEW TECHNOLOGY**

#### Monumental breakthrough.

- New metallurgical technology
- Unprecedented strength
- Greater endurance
- Resists rusting
- Available now

#### Apple LaserWriter Select 360

This expandable laser printer offers options. With a fax card option, it can work with your computer to send and receive faxes at up to 600 dots per inch. It comes with two paper trays for loading 50 or 250 sheets at a time. Additional paper trays and memory are available. This sample was printed at 600 dots per inch on a 3M Brand CG3360 Paper-Backed Laser Transparency, using Apple's LaserWriter Select Toner Cartridge.
