# BACTRACK

TRACKS BLOOD ALCOHOL CONTENT IN SECONDS

With advanced BluFire® Technology and an innovative, user-friendly design, the BACTRACK B70 breathalyzer is a new generation of alcohol tester.

## PROFESSIONAL ACCURACY

The BACTRACK B70 breathalyzer incorporates a number of features to maximize the accuracy of every test. Each test requires a deep lung air sample, helping to ensure that your breath sample reflects your true blood alcohol content. If an insufficient sample is blown, the inverse LCD display clearly notifies the user to perform another test. These features make the BACTRACK B70 an excellent choice for professional groups needing to screen for the presence of alcohol.

## EASY TO USE

Although the BACTRACK B70 packs this professional power, it was also designed for easy consumer use. It NEVER requires individual mouthpieces to be inserted, touched, or replaced. This keeps users from accidentally sharing saliva on the same mouthpiece. It is also a huge cost savings as there are never mouthpieces to purchase and replace.

## ATTRACTIVE DESIGN

And of course, the BACTRACK B70 has that instant 'wow' factor. The unique BluFire light tubes attract attention and make everyone want to test their alcohol level.

**A** Circular Light Rings provide a visual target and notify the user when to start and stop blowing.

Internal Dual Flow Tube allows subjects to blow without touching their lips to a mouthpiece. No more sharing contaminated tubes with multiple users or paying for replacement mouthpieces.

Patent Pending BluFire® Sensor Technology provides extremely accurate test results by steadying airflow and requiring a deep lung air sample for each test.

**B** Wide Test Range - Measures Blood Alcohol Content from 0.00 - 0.40%BAC

Inverse LCD Display - White digits on a black background make test results easy to view in daylight and at night.

Recessed display helps prevent scratching.

On-screen instructions guide users when to wait and when to blow.

**C** One Button Operation - Simply turn it on and begin testing in seconds.

Tap-Proof Power Button - Prevents the BACTRACK B70 from accidentally turning on.

Hold power for five seconds to display the total number of tests performed.

**D** Compact size and sleek design - easily fits into a pocket or purse.

Choose from two colors: polished black or polished white, both with a gloss finish and silver metallic bezel.

## PRODUCT SPECIFICATIONS

Dimensions.....	4.25 x 1.63 x 0.81 inches (10.8 x 4.1 x 2.1 cm)
Weight .....	1.4 oz (39.7 grams)
Sensor Technology .....	BluFire®
Detection Range .....	0.00 – 0.40 %BAC
Test Count .....	Displays total number of tests performed
Power Supply .....	Two AA batteries, not included
Battery Life .....	At least 300 tests
Warm Up Time .....	10 seconds
Response Time.....	3 seconds
Sensor Accuracy .....	+/- 0.01 %BAC @ 0.02 %BAC
Operating Temperature .....	50-104 °F (10-40 °C)
